

September 17, 2020

Thank you for being part of MMA's Market Timing Academy, MMTA2.

I hope that by now you have been able to connect with program director, [Gianni Di Poce](mailto:Gianni@mmacycles.com) (Gianni@mmacycles.com), to answer any questions you have prior to the program beginning.

Before beginning the courses on January 16, 2021, we would like to make sure you are familiar with basic terms of geocosmic studies, or astrology. This will make the program much easier for you, and these terms are not hard to learn if you are not familiar with them already. We suspect most of you are. We ask that you complete our basic MMTA2 Entrance Exam and submit your results to [Gianni](#).

If you need help completing this exam, we have created an introductory course, *Basic Principles of Geocosmic Studies for Financial Market Timing* (How to Read and Use and Ephemeris for Traders). This course can be accessed under [My Account](#) > Your Education Courses> MMTA. This course will teach you the terminology and principles of Geocosmic Studies. The course includes an eight-part video series, a 25-page course workbook, and a 29-page course guide at no additional cost. While this introductory course is not mandatory, you may find it both useful and valuable to review before the program begins.

MMTA2 will take place on the dates listed below in 2021-2022. The **program** is broken up into 8 individual **courses**. Each **course** will be taught over 6-7 Saturday **class** times. **Classes** start at 1:00 PM EST and will last approximately 2 hours each. In each **class** session, we will cover 1-3 **lessons**. We have a more detailed [Program Schedule](#) available where we have listed out each class time and lesson to be covered throughout each course, as well as required books associated with each course.

Year One: 2021

Course 1- Cycles and Chart Patterns in Financial Markets: January 16, 2021- February 27, 2021

Course 2- Geocosmic Correlations to Long-Term Cycles in Financial Markets: April 3, 2021 – May 15, 2021

Course 3- Geocosmic Correlations to Primary and Trading Cycles in Financial Markets: June 19, 2021 – July 31, 2021

Course 4- Solar-Lunar Correlations to Short-Term Reversals in Financial Markets: September 11, 2021 – October 23, 2021

Year Two: 2022

Course 5- Creating Trading and Investing Plans Combining Market Timing Studies and Price Objectives: January 15, 2022- February 26, 2022

Course 6- Advanced Support-Resistance Calculations for Short-Term Trading: April 2, 2022 – May 14, 2022

Course 7- Putting It All Together: Market Reports, Trading Plans, and Execution: June 11, 2022 – July 23, 2022

Course 8- Putting It All Together: Grand Finale: August 27, 2022 – October 8, 2022

For each course, you will be provided a Workbook one week prior to the course start date. The Workbook can be accessed under [My Account](#) > Your Education Courses> MMTA. Each course will require 1-2 additional books, which are listed on the Program Schedule. If you do not already own the required books, you may purchase through www.mmacycles.com and use coupon code: **MMTA2** to save 50% on each book.

Each class will be hosted on our video conference platform, [Zoom](#). This is the same technology we use for our webinars. If you wish to familiarize yourself with Zoom, please read over this [Q&A](#) that should help answer most of your questions. If you have any additional questions about the technology, please send us an [email](#) right away so we can help you get comfortable with the platform before class begins.

You will need to register to attend each live video conference classes. After registering, you will receive a confirmation email containing a unique link to join the class, how to submit questions, and an option to add this event to your calendar. We will send out reminders and a new registration link prior to every class.

48 hours following each live class, you will receive an email with step-by-step instructions on how to view the video recording of the class directly under [My Account](#) > Your Education Courses> MMTA. If you are unable to attend the live class, you will still receive access to the video recording of each class.

At the end of each course, an exam will be given, and all those wishing a certificate of completion of MMTA must complete each exam successfully before starting the next course. In between each course, there will be research projects which you may undertake solely, or as part of a group of fellow students not to exceed 3 per group. The topics will be chosen by the students after consulting with the program directors.

At the end of the second year, there is a final exam that must be passed before receiving a certificate of graduation. This final exam will take 3-4 hours to complete and will review the material covered in each course. If you do not wish to receive a certificate of completion and still wish to take the courses solely for your own individual use, that is fine. Only those who wish to graduate with a certificate of completion are required to take the exams and complete the research projects.

Once again, congratulations on making the decision to join MMTA 2 and committing to learning the MMA methodology of analyzing financial markets. We look forward to having you join us in January 2021!

Sincerely,

Raymond Merriman and Gianni Di Poce
