

MMTA2 FAQ

Thank you for your interest in MMA's Market Timing Academy, MMTA2.

We have created a list below of our most common questions we have been asked by prospective students of MMTA2. We are always available to answer any of your questions via [email](mailto:CustomerService@mmacycles.com) at CustomerService@mmacycles.com. You may also connect with program director, [Gianni Di Poce](mailto:Gianni@mmacycles.com) (Gianni@mmacycles.com), if you wish to learn more about MMTA2.

If you have not already done so, please watch [this interview between Ray and Gianni](#) to find out what will be covered in MMTA2. You may also [watch what our MMTA graduates](#) had to say about the original MMTA program offered in 2013-2014. We look forward to having you join us in January for MMTA2.

Q: I see that each class begins at 1pm EST on Saturday. I live in a different time zone and am unavailable at that time. Will the classes be recorded?

A: Yes! Many of our students live outside of America so we anticipated that not everyone could attend each class live. All classes are hosted virtually on Zoom and will be recorded. The video class recordings will be made available for all students on the Monday following each Saturday class.

Q: How long are class times?

A: 1.5-3 hours long every Saturday at 1pm EST, depending on the material being covered. Check out our [MMTA2 Program Schedule](#) to learn more about class dates and times.

Q: What background or education do I need to have before enrolling in MMTA2?

A: Nothing specific is required. Once you sign up for MMTA2, you will have access to our introductory course, *Basic Principles of Geocosmic Studies for Financial Market Timing* (How to Read and Use an Ephemeris for Traders). This course will teach you the terminology and principles of Geocosmic Studies. The course includes an eight-part video series, a 25-page course workbook, and a 29-page course guide. By Course 2, you will need to show an understanding of the basic principles of astrology. It would be to in all student's best interest to own [Vol 1-5 of Stock Market Timing](#) and have studied each book before each course. It will clarify the language of markets, astrology, and technical studies, which we will then go over in the courses.

Q: I am interested! What are the next steps to sign up?

A: Thank you for your interest! Step one is to send us an [email](mailto:CustomerService@mmacycles.com) at CustomerService@mmacycles.com to begin the conversation. We will then help connect you with program director, [Gianni Di Poce](mailto:Gianni@mmacycles.com) (Gianni@mmacycles.com) to conduct an initial interview. If you both feel MMTA2 is a good fit, we will

work with you to register and pay for the program either via Credit Card, PayPal, Check, or Wire Transfer. Once you have completed payment and enrollment into MMTA2, you will be sent an introduction letter along with our basic MMTA2 Entrance Exam. Please use the introductory course, *Basic Principles of Geocosmic Studies for Financial Market Timing (How to Read and Use and Ephemeris for Traders)*, to help you complete the exam. Once completed, send over your exam to program director, [Gianni Di Poce \(Gianni@mmacycles.com\)](mailto:Gianni@mmacycles.com) for review prior to Course 1 starting on January 16, 2021.

Q: Are exams and research papers mandatory?

A: No, they are optional but required for those wishing to attain MMTA certification and to be eligible to continue their research with us after the course is complete.

Q: Is the FAR for the Galactic Trader program mandatory for the course?

A: No, but it will be extremely helpful in terms of conducting additional research, not only during the course, but for any type of research pertaining to geocosmics after the course is finished. All students upon enrollment will be offered a 20% discount on FAR for the Galactic Trader if they wish to purchase the program.

Q: What discounts are available?

A: We offer an additional 10% discount to subscribers of our Daily and Weekly reports, as well as to our annual subscribers of the Monthly reports. These discounts only apply to the full two-year MMTA2 Program (\$12,000), or the pay for one-year of MMTA2 at a time option (\$6,600). We do not offer discounts on each individual course. Each course can be purchased for \$1,800/ each.

If you completed [Trading with MMA Market Timing Methods](#) in Spring 2020, you are eligible for a \$500 discount on both the full two-year MMTA2 Program (\$12,000), or the pay for one-year of MMTA2 at a time option (\$6,600). Please reach out to us directly for your coupon code.

If you are a former graduate of MMTA (2013-2014), you can sign up for MMTA2 at a 90% discount! Please send us an [email](mailto:CustomerService@mmacycles.com) at CustomerService@mmacycles.com if you wish to sign up as an MMTA graduate.

Q: How can I pay for the MMTA2 program?

A: You may process your order on our website [through the MMTA page](#) where we accept both credit card and PayPal. You may also send us a check (PO Box 14934, Scottsdale, AZ 85267), or send us a wire transfer. Please send us an [email](mailto:CustomerService@mmacycles.com) at CustomerService@mmacycles.com if you are interested in arranging a wire transfer. Payment must be received before the start of each course for any student to enroll.

Q: Is it possible to pay in installments for the two-year program?

A: Yes! The greatest savings is offered if paying for the full two-year program (\$12,000), however, most of our students choose to pay in installments. All students will have the option to pay for one Course at a time (\$1,800/ Course) or one year of the program at a time (\$6,600). We also give additional discounts to subscribers of our Daily and Weekly reports, as well as to our annual subscribers of the Monthly reports. If you have any questions around payments, or need to create a unique payment schedule, that is what we are here for and have done for many of our students. Please send us an [email](mailto:CustomerService@mmacycles.com) at CustomerService@mmacycles.com and we will work out an individual payment schedule that works best for each student.

Q: Where or how do we obtain price information for securities to conduct analysis? Is it mandatory?

A: Not mandatory per se but would likely be very inconvenient for students who do not have some sort of program to provide them with security price data. Here at MMA, we use Metastock. There are also other alternatives, such as stockcharts.com, tradingview, etc.

Q: Does MMA assist in setting up trading accounts?

A: No, however, our work focuses on futures markets. So, you will want to be sure that the company you choose offers futures trading. Some examples include Interactive Brokers and TD Ameritrade. TD Ameritrade may be ideal for beginners, as it offers their Thinkorswim platform, which provides free security data, and allows the user to place trades directly into the program.
