00:18:08 Dian Brown: Yes, please confirm the name of the book and correct spelling of the author's name.

00:25:36 Merriman Market Analyst: table of planetary phenomena by lian michelson

00:30:55 Merriman Market Analyst: Table of Planetary Phenomena by Neil F. Michelsen. Perhaps it is available on Amazon

00:34:06 Merriman Market Analyst: I'll get his name right one day.... :-D

00:37:25 Maya Bothe: Ray, do you also know as German astrology software (like solar fire)?

00:37:25 Din Uppal: Thank you

00:37:44 Maya Bothe: *a not as

00:39:18 Merriman Market Analyst: There is one or two, Maya. I don;t remember the name of it but let me ask and get back to everyone shortly.

00:39:27 Maya Bothe: Thank you!

00:42:21 Martha Geiger: Is there any concern that the US \$ will not be the reserve currency of the world in the near future?

00:42:58 Merriman Market Analyst: Yes. Its growing as China starts working on digitalizing the Yuan

00:43:07 Danica Cordell-Reeh: Martin Armstrong thinks it moves from the dollar

00:43:51 Matthieu Kaiser: we are currently transitionning from a monetary hegemony to a multipolar monetary system

00:44:04 Merriman Market Analyst: It may take until Saturn/Uranus conjoin, or whne Uranus tines Pluto, 2026-2032/

00:44:16 Sandy Enos: Has it been determined as to Mean versus True North Node?

00:44:36 Matthieu Kaiser: a number of countries are on the way to dedollarizing their trades

00:45:20 Matthieu Kaiser: and this has started even before the introduction of digital currencies

00:45:21 Merriman Market Analyst: Maybe to some extent as economic tensions increase into Node Lunar entering Aquarius-Capricorn

00:46:49 Martha Geiger: What can we take away from this-where should we be looking to invest our dollars

00:47:47 Eleonore Charrez: the american economy is one of the most fast moving, american companies are on the top of the technological development... you may just want to put your USD into US stocks

00:48:55 Matthieu Kaiser: real assets seem to be a reasonable bet/haven

00:49:25 Merriman Market Analyst: good points Matthieu and Eleanor

00:49:25 Martha Geiger: China is fast outpacing many technologies, and our government is moving toward regulating them and restricting the ones in the US. Not a concern?

00:49:56 Beverly Wells: Pluto does not rule Aries?! I am confused and Gianni has said it twice

00:51:33 Matthieu Kaiser: @Martha: to my knowledge, Saturn-Pluto is closely linked to developments in China, and it has just started (waxing) - Saturn-Uranus is linked to the US and it is entering its last phase...

00:52:50 Matthieu Kaiser: the coming decade may see a shift between these two powers

00:52:57 Eleonore Charrez: Martha, you are right with China, but democracies tend to be on the long term more creative

00:53:07 Michelle Picard:Hi Beverly. Mars rules Aries. It is also a co-ruler with Pluto of Scorpio

00:54:07 Beverly Wells: Yes Michelle thank you. I know that's why I don't understand Gianni who stated twice that Pluto rules Aries?

00:55:15 Michelle Picard:Oh. I must have missed Gianni's comments.

00:55:44 Sandy Enos: Can Ray or Gianni please discuss the difference between the Mean and True North Node and which one is to be used in this course?

00:55:45 Barbara Gibbs: You said far less time transiting through virgo to Capricorn & longer from pisces thru cancer but you didn't include leo or aquarius. both have transits of 21 yrs.

00:57:29 Wyatt Fellows: how does a planet come to "rule" a sign?

00:59:10 Merriman Market Analyst: Astrologers motly give rulership of Pluto to Scorpio and Mars to Aries, although many cnsider Mars the primary ruler of Aries. There are a few astrologers who give rulership of Pluto over Aries due to the breakdown of planetary rulership through the signs starting with Sun in Leo and Moon in Cancer. Every sign after Leo is ruled by the planet closest to the Sun. The same of every planet before Cancer. So, Mercury rules Gemini (before Cancer) and Virgo, (after Leo. Venus riles Taurus, the sign before Gemini and Libra (sign after Virgo, and so on. The you have Mars, which rules Aries, the sign before Taurus and after Libra. Then Jupiter ruling Pisces (before Aries) and Sagittarius (after Scorpio. But Neptune rules Pisces too, which is why some feel Pluto should go to Aries, since Neptune rules Pisces. the dame breaks down with Saturn, ruling Capricorn (*after Sag(but also Aquarius (before Pisces). So, you can see, Pluto would fit this scheme best if it was assigned to Aries.

01:04:03 Martha Geiger: 1984. I was born in 1949!!!

01:06:42 Merriman Market Analyst: Yes Bsrb,20-21 years is about the average length of time Pluto spends in signs. As is Aquarius and Leo

01:09:04 Daniel Ineichen:why is it the greatest illusions of the last 164 years?

01:09:50 Merriman Market Analyst: Last time Neptune was in Pisces and orbit of Neptune is 164 years

01:10:13 Merriman Market Analyst: Neptune rules Pisces, so its like a double Neptune energy

01:10:40 Matthieu Kaiser: (not really for the glyph ;-)

01:10:47 Matthieu Kaiser: I Don't use this glyph at all

01:11:18 kathleen hallissey: The dot in the center\

01:13:33 Merriman Market Analyst: The glyph is common in several European (German) software programs. The creator of these images was Ansonia Langsdorf (my wife), who is a German astrologer

01:13:59 Merriman Market Analyst: Antonia, not Ansonia :-))

01:14:53 Matthieu Kaiser: so this must be German more than European... In all the books I have, the glyph is Something like ☿

01:15:56 Ibrahim Kone: Bitcoin did peak in Dec 2018

01:17:36 Merriman Market Analyst: The symbol we mostly use is the one that contains an 'H', which is the initial of the last name of its discover, William Hershel.

01:18:26 Matthieu Kaiser: agreed

01:19:05 Eleonore Charrez: there was also the atomic bomb

01:19:40 Rita Perea: So Uranus is in the 3rd decadent of Gemini now?

01:19:58 Merriman Market Analyst: Just like the symbol of Pluto. The common glyph is PL, which represents the initials of its discoverer Percival Lowell. But there is a more "astrological glyph" used by many other astrologers. I can't prnt the symbol glyph here. in chat

01:20:19 Wyatt Fellows: still in second decadent I think

01:21:11 mj wetherhead:what does it mean "exalted in x sign"?

01:21:45 Eleonore Charrez: no uranus is in taurus, 2nd decant, I 'd say ?

01:22:22 Merriman Market Analyst: Uranus is just beginning of the second decantae of Uranus (10-20 degrees)

01:24:14 Sandy Enos: Uranus in Gemini...Quantum computing explosion?

01:24:14 Eleonore Charrez: of Taurus ? is there a typo , Ray ?

01:24:16 Rita Perea: Thanks Ray and Wyatt.

01:24:39 Merriman Market Analyst: Yes, Uranus is in Taurus, not in Uranus :-))

01:24:52 Barbara Gibbs: when Uranus enters aqu. again humans become avatars?

01:25:10 Merriman Market Analyst: Yes, of course :-))

01:25:59 Merriman Market Analyst: Maybe avatars become human? Just joking. Don't know, We may all have chips inserted in our brains by then

01:26:16 Rita Perea: Uranus=Expect the Unexpected!

01:26:19 Sandy Enos: Uranus produces 'genius' inventions, ideas.

01:26:50 Maya Bothe: Ray, yes, Elon Musk talked about this

01:27:42 Merriman Market Analyst: Really! Great minds think alike (hahaha)

01:29:06 Martha Geiger: Ray- are these chats saved anywhere that we can access them later?

01:29:45 Sandy Enos: Uranus in Gemini, cryptos will become the 'norm' in commercial transactions?

01:30:39 Merriman Market Analyst: I don't know. A question for Alie, who unfortunately (but wonderfully_) is now on maternity leave. Has so last week).

01:30:59 Matthieu Kaiser: Uranus in Gemini: the boom of artificial intelligence?

01:31:11 Merriman Market Analyst: Yep. Good obs

01:31:20 Wyatt Fellows: yes the chats are available on the website or mmta portal I believe

01:31:25 Maya Bothe: Chats are saved, yes

01:31:32 Maya Bothe: you

01:31:50 Maya Bothe: You can also save the chat manually here

01:32:26 Rita Perea: Ray and Martha- if you click on the 3 dots next to the button that says "file" at the bottom of the chat, you can save the chat to your desktop :)

01:32:48 Merriman Market Analyst: Great! Thank you Rita!

01:33:25 Rita Perea: You bet!

01:36:32 Martha Geiger: Thank you!

01:36:54 Matthieu Kaiser: and due to regulations introduced after 2008

01:59:01 Merriman Market Analyst: Tables of Planetary Phenomena

01:59:19 Eleonore Charrez: many thanks !!!

01:59:33 Eleonore Charrez: they also have them in www.bookdepository.com

02:00:54 Matthieu Kaiser: regarding these tables, I may have missed something in the previous course; but at the end of Lesson 3 in the workbook, it is said we have tables of ingresses in the next section, but I have not found them

02:01:19 Matthieu Kaiser: (p.21)

02:02:30 Merriman Market Analyst: Not sure. May be it relates to Gianni's presentation of planets entering each sign - last and next - with dates. If so, it wasn't a table after all. But let's ask Gianni

02:05:02 Barbara Gibbs: On pg. 19

02:05:30 Matthieu Kaiser: p.19 these are Uranus ingresses

02:05:31 Matthieu Kaiser: ok

02:05:45 Matthieu Kaiser: thanks

02:05:51 darri murphy: it is instructions for creating a hit list

02:06:45 darri murphy: I meant the text is pg 19

02:14:39 Ibrahim Kone: Des A a crest or Trough

02:14:44 Barbara Gibbs: the crest A was July 1st

02:15:11 mj wetherhead: I thought the crests were labeled with letters

02:15:13 Matthieu Kaiser: it's a crest

02:18:12 Eleonore Charrez: many/most cardinal signs - troughs linked to cardinal signs ?

02:18:33 Eleonore Charrez: oops. Gianni just mentioned it :)

02:29:45 Eleonore Charrez: Which are the major aspects you're watching for next week and how would you interpret them ? There are lots of sextiles but also Venus square Pluto and Mars trine Jupiter. Which ones are more important and how ?

02:30:19 Eleonore Charrez: :) - no rush :)

02:33:04 Ibrahim Kone: Do you see a market divergence between US and EU markets Primary Cycle with US market having had their PB and EU not as yet?

02:34:14 Martha Geiger: What markets would be the most likely to rise in this rally?

02:34:31 Eleonore Charrez: so the long term cycles are "only" valid when they are in some kind of aspect ?

02:34:33 Martha Geiger: What equities, I mean

02:37:14 Din Uppal: Some folks were planning to set up a WhatsApp or Facegroup - has anyone set up this group ?

02:39:11 Danica Cordell-Reeh: Does this also apply to crypto coins

02:39:54 Rita Perea: Outstanding class and information today. Thank you Gianni, Ray and everyone!

02:40:26 Irina Erastova: I think it will be break outs in criptocurrencies

02:41:00 Martha Geiger: Would you consider setting up a weekly Zoom updates to have these discussions? I'd be happy to sign up as a paid subscriber.

02:42:14 Din Uppal: That will be great, thank you so much.

02:42:21 Dian Brown: Great class today!!

02:42:29 QINGHUA LI: when we analyse a market, do we have to go over every single planet, like Pluto, Neptune, Uranus, etc. because not every planet works at the same time for a single market

02:42:51 Barbara Gibbs: We've got a tanker stuck in the suez & 200 more tankers waiting in line, a pandemic & semi shortage affecting autos & technology, people still out of work, businesses closing...can we expect more from now until 2024 with pluto? Pluto going to take us to our knees?

02:42:55 mj wetherhead:if anyone is interested in FB group, you can email me team.azuri@gmail.com

02:43:02 Pouyan Zolfagharnia: Ray, Have you done any work on the transit of Mars & Saturn over eclipse degrees? For example the last crest formed in Feb 2020 occurred just as Mars transited 3 degrees Capricorn.

02:44:10 Danica Cordell-Reeh: I could set up a zoom meeting

02:45:00 Dian Brown: Pluto will be stationary retrograde on 4/27/21

02:48:34 Eleonore Charrez: zoom has a free public access

02:48:48 Vito Mijal-Pasa: thanks all 1

02:48:58 Eleonore Charrez: it's the same, but cuts after 40 min

02:49:25 Eleonore Charrez: many thanks !!!!!
