

00:23:05 Rita Perea: Would love a Solar Fire and FAR presentation. Thank you!

00:23:22 Merriman Market Analyst: Yes, we are talking about doing that, Rita

00:23:59 Rita Perea: Thank you, Ray.

00:24:43 Barbara Gibbs: I typed-in planets from Saturn outward plus north node for NYC but I'm getting many pgs. of transits but no chart like is showing on pg.43.

00:26:09 Merriman Market Analyst: Let me go long and get back in a moment

00:31:18 Martha Geiger: Can you repeat the answer to question 6, I missed the degrees

00:32:17 Merriman Market Analyst: Ah! So in Solar Fire, you go into Chart Options, > "Displayed Points" and choose "CREATE. Give it a name (like MMTA outers) just those five planets/points: Saturn, Uranus, Neptune, Pluto and North Node. Click on all the planets and points you don't want, so that only North Node. You have to choose which

00:32:23 Merriman Market Analyst: Ops.

00:33:19 Ibrahim Kone: Can we review lesson 6 next week so we can go through it on our own?

00:33:36 Ibrahim Kone: The result I mean

00:33:50 Merriman Market Analyst: Click on planets you don't want so that only Saturn, Uranus, Neptune, Pluto and North Node show up. Choose SAVE and then SELECT. It should now show the chart with those planets only showing

00:35:07 Martha Geiger: Are you using solarfire or Far for these charts

00:36:37 Merriman Market Analyst: Lesson 6? Yes, good idea. Everyone should work with their teams on this and be ready for next week, or just do it on your own, and let's see if we can go over it next week.

00:37:05 Rita Perea: How many years is Saturn in a sign? (Gianni said the North Node is in a sign for 1.5 years. And Saturn is also fast moving.)

00:37:12 Merriman Market Analyst: Using Solar Fire for this note to Barb on constructing Aries chart with only some planets

00:37:33 Merriman Market Analyst: Saturn is in a sign 2.5-3 years

00:39:22 Rita Perea: Thank you!

00:39:58 Matthieu Kaiser: could you remind us where we can find the Foundation Long-Term stock index chart in the course so that we can make the copies?

00:40:49 MJ Wetherhead: pg 40-41 workbook Matthieu

00:41:06 Merriman Market Analyst: Pg 29 of your workbook

00:42:14 Merriman Market Analyst: Pg 28-29, depending on your word format, Maybe page 39 - 41 depending on your screen settings

00:44:29 Matthieu Kaiser: thanks

00:46:17 kathleen hallissey: Is noon the best time/

00:47:47 Merriman Market Analyst: Use. Noon, choose Aries for chart type in the original screen

00:48:11 kathleen hallissey: TY!

00:56:42 Eleonore Charrez: which means it would be a sextile (almost sextile) rather than square ?

00:57:24 Martha Geiger: I have not purchased any software at this point. Do I need to have solarfire to get these charts-both of the market and of the natal astrology charts etc

00:58:27 Merriman Market Analyst: Yes, you need some kind of astrological calculation software program

00:58:56 Merriman Market Analyst: We use Solar Fire, but there are other =s that are very good too - Janus, Kepler, etc.

01:03:18 Lian Handaja: I have Solar Fire V8, that I got a long time ago when I wanted to learn about astrology. Do I need to upgrade to the newest version or that should be good enough for our study?

01:04:06 Ali Alvarado Atias: Ray, Gianni, are you suggesting that we use the Depression Low as a Natal Chart in Itself and use the Transits related to that low?

01:06:11 Merriman Market Analyst: No, although I think you would find that chart active after the event for other sharp declines or lows or highs that followed. We are simply saying that hard aspects involving Saturn-Uranus-Pluto to one other are signatures coinciding with strong market gives - long-term cycles - nearby

01:06:20 kathleen hallissey: I have Solar fire and astro gold. Astro gold works on a Mac and it is a surprisingly good program.

01:06:38 Merriman Market Analyst: Good to know. Thank you!

01:06:44 kathleen hallissey: At a reasonable price

01:07:48 Rita Perea: Gianni, can you please repeat what we put in the chart if we know the day and not the year.... Etc.

01:08:15 Rita Perea: I may have quoted that incorrectly

01:10:14 MJ Wetherhead: wkbk says 1835 for crest

01:11:12 Vito Mijal-Pasa: 28 Gianni ?

01:11:37 MJ Wetherhead: in table 1

01:12:34 MJ Wetherhead: but position of planets correct on slide

01:18:15 MJ Wetherhead: same change needed on Table 2 title

01:21:38 Matthieu Kaiser: Don't we look at the same info (number of years // degrees) between the 1st and 2d lows?

01:22:35 Merriman Market Analyst: Yes

01:22:44 Kevin Blank: Pluto, Jupiter, Mars were conjunct March 23, 2020

01:22:48 Merriman Market Analyst: usally 6-22 years

01:23:17 Matthieu Kaiser: ok - no table for this then?

01:23:25 Merriman Market Analyst: March 19-April 4.... Mars conjunct Jupiter, Saturn, and Pluto. Hasn't happened since early 1880's

01:23:27 Vito Mijal-Pasa: Can secondary low be lower than the primary low ?

01:24:08 Merriman Market Analyst: Happened once in 1784 versus the higher low in 1761-62

01:29:59 Pouyan Zolfagharnia: why are we looking at crests for a secondary low?

01:30:32 Matthieu Kaiser: +1 on Pouyan's question ;-)

01:31:09 Daniel Ineichen:can we explain the pluto effect and its role again please? It was very quick.

01:37:28 Lian Handaja: 7-17 degree pluto travel from where to where again?

01:54:55 Hui Fang Boo: Thank you

02:00:39 Matthieu Kaiser: it should be important for France as well

02:00:51 Matthieu Kaiser: (Jupiter-Neptune conjunction)

02:01:22 Merriman Market Analyst: Dies it hit a panet in France's chart?

02:01:59 Matthieu Kaiser: the Jupiter-Neptune conjunctions are well correlated to very important events in the French political life

02:02:16 Merriman Market Analyst: Ah ha! Good to know!

02:02:31 Vito Mijal-Pasa: agreed Inflation blow right up in coming years which will mean stocks turn vulnerable, in Return Ray is spot on looking at the peak nowadays ?

02:02:35 Matthieu Kaiser: Republic foundations, révolutions, important changes in governments...

02:02:51 Ibrahim Kone: This digression was actually very useful and welcomed :-)

02:03:06 Matthieu Kaiser: the current Republic chart (1958) features one

02:09:58 Daniel Ineichen:but isn't this simply a function of neptun's orbit lenght and the fact that we identified a 72 years cycle. So, is Neptun dirving the cycle or just simply following coincidentally?

02:10:27 Merriman Market Analyst: its all correlation, not causal, IMHO

02:13:40 Matthieu Kaiser: I think Neptune has been assigned a dignity in Sagittarius as well (which fits with their common link to faith and religion)

02:17:20 Matthieu Kaiser: during the 2007 crest, Neptune was in Aquarius

02:18:59 Maya Bothe: Neptune in pisces seems to have a psychological effect on retail investors, who are dreaming of a never-ending stock market rally and getting rich fastly. Even during the March 2020 crash retailers got very euphoric and newspapers wrote „this is your once in a lifetime chance, buy buy buy“ and 4 weeks of fearful hysteria tuned very fast into euphoria and retailer speculation. I'm asking myself if a secondary bottom is possible while retailers got so euphoric (Neptune in pisces) at the same time?

02:22:40 Matthieu Kaiser: inflation may also stem from taxes and output repatriation, hence higher wage growth

02:22:51 Vito Mijal-Pasa: yes we pay 3.5 dollar per brick lay compare to 90 cents year ago :)

02:23:44 Matthieu Kaiser: de-globalisation & currency debasement may contribute to inflation as well

02:25:05 Martha Geiger: Americans spend a lot of money on credit, and the government is just spending money they don't hae

02:26:16 Hui Fang Boo: In the crypto market, everyone is a moonboy right now, dreaming of making millions from the crypto market

02:27:09 Maya Bothe: I know a 90 year old woman who bought fuel cell stocks, lol

02:27:53 Martha Geiger: Assuming we are heading toward another bubble, would you see a particular vulnerable market

02:30:08 Barbara Gibbs: Are we practicing for a French Revolution in the US?

02:31:08 Daniel Ineichen:A follow up on last week / bubbles: Ray mentioned the boom and bust cycle with Uranus in Taurus peaking around the middle decanade. Now, towards June this seem to happen but then Uranus turns retrograde and will only be back in early 2022. Which date to you consider more relevant for the top?

02:34:19 Barbara Gibbs: History repeats itself. The news media tells us not to be concerned with inflation. that powell has more tools in his tool box. Buy land or real estate.

02:37:18 Rita Perea: What is your choice for the best and most accurate place to get economic news?

02:38:35 Eleonore Charrez: Rita : have a look at investopedia.com. That's full of great info

02:39:31 Rita Perea: Thank you, Eleonore. I do look at Investopedia now.

02:40:00 Vito Mijal-Pasa: spot on !

02:40:13 Ibrahim Kone: Topping that!

02:40:38 Ibrahim Kone: The news industry is just looking for reason after the facts

02:41:42 Matthieu Kaiser: what about the FT?

02:42:05 Daniel Ineichen: I find the FT very useful, in particular for non US news.

02:42:20 Matthieu Kaiser: I do as well

02:42:25 Rita Perea: Thank you. I love the WSJ podcasts.

02:43:54 Ali Alvarado Atias: I was trading in 9/11, Madrid Terror Attacks and the Barcelona Terror Attacks, I recall in all 3 events, there were relentless selling Intraday *Before* these events took Place, do you attribute this to leaked information?

02:44:28 Barbara Gibbs: I want to make money but just in case, I've purchased lots of new #2 pencils & a pencil sharpener so I can offer customers the service of sharpening their pencils & insuring repeat business as I stand on the street. corner.

02:44:58 Martha Geiger: Barbara- LOL

02:45:01 Maya Bothe: Technicals were also predicting the Corona crash way before (it started 2018)

02:45:15 Rita Perea: @Barbara!!! Ha ha!

02:46:34 Rita Perea: I love this part of the class when we can just listen to the wisdom of Gianni and Ray. Thank you for making time for answering our questions.

02:46:57 Ali Alvarado Atias: Excellent, Thanks All!!

02:47:02 Barbara Gibbs: How about a barter system? It use to work.

02:47:46 Ibrahim Kone: Apart from crude did you observe other correlation between Neptune

02:47:49 Matthieu Kaiser: thank you

02:47:50 Kevin Blank: Could Dec 2018 Low be a pair with Mar ch 2023 low

02:47:50 Eleonore Charrez: Many thanks !!!!

02:47:50 kathleen hallissey: TY!!

02:47:53 Hui Fang Boo: Thank you for the great session!

02:47:53 Maya Bothe: Thank you, bye

02:47:53 Yating Hu: Thank you!
