

00:27:45 MJ Wetherhead: 9.20

00:32:18 Eleonore Charrez: so it's a continuation of course one, but now with the shorter cycles, right ?

00:41:36 Eleonore Charrez: ok thks

00:49:42 Eleonore Charrez: just to confirm, for Ibex we had 9.8Y, 51M and 35M, so add to these cycles the geocosmics, but not break these cycles down to shorter terms, i.e. 35m/2 and /3?

00:58:18 Matthieu Kaiser: fintechs

00:58:26 Wyatt Fellows: astro rookie question...how did said commodity/stock sector/financial get assigned to specific signs?

00:59:15 Eleonore Charrez: and they start charging negative interest rates

00:59:22 Danica Cordell-Reeh: Or is it banks are becoming obsolete and decentralized with crypto takes over

01:00:19 Eleonore Charrez: traditional banks get into cryptos and blockchain

01:00:44 Merriman Market Analyst: The assignment of these sectors to signs is mostly an original effort by myself, base don my personal experience with astrology over the years and applying my sense of logic to what sectors they correlate with

01:01:18 Matthieu Kaiser: fintechs will be disrupting banks or taken over by them - some fuel for a boom in them anyway

01:01:40 Kevin Blank: Savings and Loan Bust

01:01:55 Merriman Market Analyst: Yes, that has a logical astro basis to such a projection

01:02:13 Ibrahim Kone: This is already the case I work for a major bank in CH and this blockchain is being used especially in Asia

01:02:20 Merriman Market Analyst: Uranus in Taurus -savings - Uranus (b ust)

01:02:26 Merriman Market Analyst: Its possible

01:03:46 Ibrahim Kone: Blockchain is called DLT (Distributed Ledger Technology) in institutional Banks

01:04:14 Merriman Market Analyst: Thank you for that, Ibrahim

01:05:07 Eleonore Charrez: the clearing companies of exchanges are moving into DLT for the security settlement, as well as for real estate / mortgage management

01:05:17 Martha Geiger: Ibrahim, will you be doing your project on bitcoin, or the crypto market?

01:07:13 Eleonore Charrez: but the automotive industry is not the most important industry for chip compnaies, reason why they are often the last to be served

01:09:01 Danica Cordell-Reeh: Is there a general index to evaluate the crypto market? Or do you look at stable coins, privacy coins etc

01:09:34 Vito Mijal-Pasa: obviously Oil

01:09:49 Eleonore Charrez: <https://coinmarketcap.com/all/views/all/>

01:10:31 Eleonore Charrez: in cryptos people moved out of bitcoin, into etherium, there are regularly switches within cryptos

01:10:57 Eleonore Charrez: dogecoin is the most recent move of crypos

01:11:18 Ibrahim Kone: @Martha - I would like to do the DAX first because of the long term factor but I am interested of doing Ethereum let sync up this week so we can see if we can work together

01:13:00 Merriman Market Analyst: yeah, but very unreliable I think as real deal - pure speculation Dodgecoin

01:13:29 Merriman Market Analyst: dogecoin

01:13:33 Eleonore Charrez: fully agree Ray !!! my son is very much into cryptos, and there are regularly switches from the one or other...

01:13:46 Martha Geiger: Ibrahim- I would love to, but I am overcommitted right now and won't be able to contribute much time to the project.

01:13:58 Eleonore Charrez: but out of bitcoin and etherium, the others are pretty spec

01:14:22 Danica Cordell-Reeh: On chips do you look at China and Taiwan given the market share Taiwan has in supplying chips

01:14:58 Matthieu Kaiser: Jupiter in Virgo: Aug 2015 - Sep 2016

01:15:29 Martha Geiger: My trouble finding contractors is Shortage of people who want to work part time-the buzz is that they are making too much money on the US pandemic stimulus. So supply of workers short right now :)

01:15:40 Merriman Market Analyst: hat ight proi\ve interesting Danica. Problem is the correct "founding" date of a country, let alone "time"

01:16:29 Danica Cordell-Reeh: Perhaps the major chip company in Taiwan.

01:16:43 Aiga von Kesselstatt: what about real estate in taurus

01:16:49 Merriman Market Analyst: Maybe, worth a look

01:16:50 Martha Geiger: Taiwan Semiconductor.

01:17:02 Aiga von Kesselstatt: thanks

01:17:22 Danica Cordell-Reeh: Thanks Martha

01:18:13 Martha Geiger: Smithfield Foods-ham supplier, is owned by the Chinese

01:19:00 Ibrahim Kone: There is a lot of work happening on flying cars as well

01:21:04 Lian Handaja: If the sector that is affected by the sign starts seeing increase in price before Jupiter enters the sign, will it experience price increase again before leaving the sign or the opposite (price going down)?

01:21:12 Aiga von Kesselstatt: what about arts in libra

01:21:50 Yating Hu: Is shipping related to both Gemini and pieces? Gianni mentioned it's related to Gemini but the workbook list it in Pisces

01:22:35 Merriman Market Analyst: Yes, you want to buy the sector of Jupiter sign before Jupiter enters that sign. In that sign, you look for a top

01:23:03 Merriman Market Analyst: Libra rules the art market and probably gems too

01:24:37 Merriman Market Analyst: Shipping.. depends on what is being shipped. Oil tankers would be Pisces, the postal mail delivery might be Gemini, maybe Virgo too.

01:24:58 Yating Hu: Great info, thanks Ray!

01:25:28 Danica Cordell-Reeh: Am hearing lumber up 35 to 40%

01:26:11 Merriman Market Analyst: I think maybe more, Danica

01:26:49 Lian Handaja: Thanks, Ray

01:28:36 Aiga von Kesselstatt: maybe we will get a bust, when jupiter returns to aquarius in summer?

01:29:00 Aiga von Kesselstatt: then a steep increase afterwards, when it goes to pisces for good

01:30:16 Merriman Market Analyst: Yes, that is what I think. Jupiterin mutable signs can be wild - big peaks, big valleys, in stocks, metals, and crude oil

01:30:30 BETH WOODY: Lumber is up because last winter in 2020 the industry was ready for a robust "new homes" building cycle. But with the pandemic the saw mills closed at the beginning. But surprise! Folks at home wanted to remodel and the restaurants remodeled for pandemic safety. Now they are way behind and just trying to keep up. Prices will fall back.

01:30:31 Aiga von Kesselstatt: thank you, Ray

01:32:37 Ibrahim Kone: @Martha - perhaps next so many interesting studies to do :-)

01:32:48 Matthieu Kaiser: 2046

01:33:23 Ibrahim Kone: @Eleonore - Are you based in CH?

01:33:24 Martha Geiger: Ibrahim- Good thought. I would like to do one on crypto.

01:33:46 Eleonore Charrez: Yes, I am in Geneva, are you in GVA or ZH ?

01:34:16 Ibrahim Kone: I am in ZH we shall sync up

01:34:19 Martha Geiger: Ibrahim, where are you? I am in the US, Virginia-east coast

01:34:45 Eleonore Charrez: with pleasure Ibrahim

01:35:34 Ibrahim Kone: @Eleonore - Will drop you an email

01:35:37 Martha Geiger: NVM- you said you were in China I believe.

01:36:44 Ibrahim Kone: @Martha - I am living in Zurich I think Crypto will be even more relevant for short term studies on course 3 due to the lack of data

01:38:44 Eleonore Charrez: just another word on Dogecoin : apparantly Elon musk bought dogecoin, some \$200k, guess that's why it performed so well recently

01:39:20 Martha Geiger: Eleanore, he has been hyping dogecoin-it has done well since he spotlighted it.

01:39:32 Pouyan Zolfagharnia: Jupiter in Gemini - The Singularity for AI?

01:41:04 Vito Mijal-Pasa: when Uranus transiting the sign obviously first part is the boom period question is when does it start effecting the bust part ? or do we gauge that with Uranus aspecting with the other outer planets ?

01:41:39 Aiga von Kesselstatt: could you repeat the bankruptcy aspects?

01:41:40 Danica Cordell-Reeh: What about the virtual real estate area like Decentral Land

01:42:19 Vito Mijal-Pasa: and what is the orb of influence with Uranus -Pluto square Ray ?

01:42:42 Kevin Blank: Saturn Conjunct Neptune in 2026 in Aries

01:42:58 Vito Mijal-Pasa: when Uranus transiting the sign obviously first part is the boom period question is when does it start effecting the bust part ? or do we gauge that with Uranus aspecting with the other outer planets ?

01:58:47 Lian Handaja: Can't see how they do it with a 1031 exchange. It has to be real property. I don't think crypto is real property, but what do I know...:)

01:59:37 Lian Handaja: I can see that it would be a court case if it happens. :)

01:59:44 Merriman Market Analyst: I was hoping you'd chime in on this Lian, people will try whatever they can as I'm sure you know!

01:59:44 Ibrahim Kone: Central banks around the world are working on developing their own crypto so the tech is here to stay. China will make there own public by year end which mean an easier way to trade with them directly without converting to USD

02:00:28 Martha Geiger: That's why Etherium is taking off. It was developed to make it easier to transact person to person, without having to go through any brokerage or financial institution.

02:00:43 Lian Handaja: Indeed, like claiming a dog for dependent. :)

02:02:55 Lian Handaja: I would let you know if the IRS loses that case in the court.

02:03:14 Lian Handaja: I am sure it would be big news.

02:18:24 Eleonore Charrez: Whouu !!! Many thanks !!! Great Presentation !!!! Great work !!!

02:18:37 Ali Alvarado Atias: Excellent Presentation Guys, Congrats!

02:18:46 Abhishek Singh: Thanks Matthieu & Pouyan for an excellent presentation!!!

02:18:48 Hui Fang Boo: Great presentation!

02:18:57 Martha Geiger: Awesome presentation. You are professionals!

02:19:02 Rita Perea: What an incredible presentation! Thank you!

02:19:08 Kathleen Hallissey: ty

02:19:09 MJ Wetherhead: Amazing!

02:19:42 Maya Bothe: Great, thank you!

02:20:01 Dian Brown: Great presentation!

02:20:34 darri murphy: very very relatable . Your presentation will serve as a template for how to present this material, thank you both

02:20:41 Ibrahim Kone: Super work thank you to you both for these insides!!!

02:21:42 Ibrahim Kone: Also copper is also finds in other mines like precious metals mines

02:21:42 Vito Mijal-Pasa: Fantastic Guys

02:22:45 shanna forlano: thank you !!

02:22:50 Aiga von Kesselstatt: really great presentation - thank you!!!

02:23:08 Matthieu Kaiser: Thank you all for your attention and your nice comments!

02:23:46 Vito Mijal-Pasa: also looks like triangle in Elliot terms which presents the same Calculation as Gianni mention which reinforce but I differ on these heights for a pull back first :)

02:38:26 Eleonore Charrez: was heavy !!! great couse !!!

02:38:29 Aiga von Kesselstatt: I don't recall the bankruptcy aspects to natal charts

02:38:43 Hui Fang Boo: Why is the weekly report on bitcoin calculated using bitcoin cash vs bitcoin/usd?

02:40:25 Rita Perea: Great class today! Thank you everyone!

02:42:01 Hui Fang Boo: Got it. Thanks

02:42:02 Eleonore Charrez: I found copperalliance.org, which shows, that copper is basically used in every industry !!! many thanks Pouyan and Matthieu

02:42:26 Din Uppal: In the MMA Weekly report - it mentions index / markets may top out next week

02:42:54 Matthieu Kaiser: if you want to know more about the relationship btw Venus and number 8: <https://earthsky.org/astronomy-essentials/five-petals-of-venus>

02:44:14 Ibrahim Kone: How do you determine cycles for crypto currencies as they are very young markets?

02:45:46 Vito Mijal-Pasa: Commodities in general when they rally towards the end they usually stretch the rally becomes extended before prices tank

02:46:41 Vito Mijal-Pasa: Matthieu I think from my knowledge base Venus related to no 6 , Saturn to 8, Jupiter to 3 etc

02:46:56 Din Uppal: Thank you so much Ray!

02:47:09 Matthieu Kaiser: Vito, take a look at the link I have shared. This is astronomy-based.

02:48:42 Vincent Wang: So bond rally ?

02:49:03 Vito Mijal-Pasa: aw I thought you mentioned in presentation Astrology oops

02:49:45 Vincent Wang: Thanks gianni

02:50:00 Matthieu Kaiser: this is also used in astrology as in some astrological forecast techniques, Venus periods last 8 years

02:50:35 Abhishek Singh: Thanks Gianni & Ray for today's session

02:51:20 Vito Mijal-Pasa: I see you look at it Cyclically ,

02:51:29 Eleonore Charrez: Many thanks !!!!! For exceptional course !!!

02:51:30 Hui Fang Boo: Thanks for the great session today

02:51:34 Vincent Wang: Thanks

02:51:51 Vito Mijal-Pasa: Cheers have a good week all 1

02:51:52 Danica Cordell-Reeh: Venus star point book Sophia venus

02:51:56 Yating Hu: Thank you
