00:46:50 Barbara Bernales: What's the significance of the asterisk next to the CS values?

00:54:19 Maya Bothe: I would call for December

00:57:12 Ali Alvarado Atias: Venezuela's 1999 rewritten constitution has Saturn in its Asc., lived that one personally, not fun.

01:04:21 Ibrahim Kone: That very interesting because I have Venus Conj Jupiter in Libra and I started investing my by buying Silver coins:-)

01:04:51 Merriman Market Analyst: You and I both, Ibrahim :-))

01:06:37 adam childs: venus opposite Jupiter something around then

01:06:50 adam childs: interesting

01:11:42 Pouyan Zolfagharnia: Wouldn't the trine in 2020 Jup-Plu have been the 240? nit the 120 trine

01:13:39 Eleonore Charrez: All you mean all aspects together ?

01:27:03 Eleonore Charrez: You are most welcome to stay with us in Geneva, if you feel like making a trip to Geneva, Ray

01:29:40 Eleonore Charrez: It's ok, we see it well !!! no need for the pointer !

01:32:10 Maya Bothe: can we stay with the market we examined in research I & II ? Or just the markets on Ray`s list?

01:32:45 Maya Bothe: Ah okay, Ray is talking about it now :)

01:35:36 Danica Cordell-Reeh: End of day values correct

01:35:52 Eleonore Charrez: both are group works ?

01:36:04 Irina Erastova: Should we do aspects of planets?

01:36:08 Martha Geiger: What is the bitcoin spot market-

01:36:34 Martha Geiger: got it

01:38:46 Eleonore Charrez: for crude oil : brent ? WTI ?

01:39:24 Pouyan Zolfagharnia: Trading View allows you to draw the 4% (you can choose the %) filtered wave

01:39:42 Merriman Market Analyst: WTI for Crude

01:39:50 Merriman Market Analyst: Great to know, Pouyan, thank you for sharing

01:39:55 Merriman Market Analyst: Is that the free version too?

01:40:06 Pouyan Zolfagharnia: Yes

01:41:07 Pouyan Zolfagharnia: But obviously without the tabulation for Astrology that Ray is showing us now :o)

01:41:49 Martha Geiger: Pouyan,

01:42:01 Martha Geiger: which program do you use for astrology

01:42:31 Pouyan Zolfagharnia: I've been using Timing Solutions and Solar Fire

01:45:41 Martha Geiger: Thanks

01:49:42 adam childs: we have a venus mars conjunction soon

01:49:56 Merriman Market Analyst: Yes, July 13

01:55:06 Pouyan Zolfagharnia: Gianni what are your thoughts on the grains?

01:55:26 Martha Geiger: Pouyan, are the two programs free?

01:55:57 Danica Cordell-Reeh: Solar fire is not

01:57:21 Irina Erastova: If I have a Uranus exalted in my chart should I take bitcoin for my research then?

01:57:49 Maya Bothe: bullish Wolfe wave in Soybeans ;)

01:57:52 Ibrahim Kone: What are your thoughts on crude? It is looking like a PT and possibly a 17months top is forming at the moment with some technical divergeances

01:58:27 Ibrahim Kone: What are your thoughts of BTC and ETH ?

01:58:32 Ali Alvarado Atias: In a case where we have any Cycle due (IE Primary) and we are looking for any aspects that repeat in that same orb, but what would you say has more Importance in case one of them is missing?, a static linear count (ie 18 week) or a Planetary Aspect that is outside of the orb of the linear cycle count? hope that makes sense.

01:58:35 Danica Cordell-Reeh: Irina like the question. Gianni are there signatures in our charts that might suggest one market to study over another

02:02:08 din Uppal: Does the cycles approach work well for any particular stocks (e.g. Apple)

02:02:49 Maya Bothe: In course 1 Gianni said he does it for single stocks, too

02:03:32 adam childs: galactic trader has chiron vesta etc could they be worth researching

02:04:10 adam childs: sun so I should trade gold

02:04:11 din Uppal: Thanks Maya. Are there any particular stocks that it works more accurately.

02:06:26 Ibrahim Kone: Is that something that we will be looking at at some point in the class (natal chart predicament for specific market)?

02:15:53 Pouyan Zolfagharnia: I've noticed a 15m cycle in Bitcoins, with the low due June/July. Do guys see anything similar?

02:16:48 Maya Bothe: I just looked at the chart pattern in Soybeans. The apex is January 2022. So it has a lot of time and room to fall before the bullish breakout. What I like about January 2022 for a bullrun in Soybeans is the outlook for the indices to top out in December (inflation rise in January 2022 again?)

02:16:53 Ali Alvarado Atias: Thanks Ray/ Gianni

02:17:54 MJ: Go England!!! Thanks all!

02:18:19 Eleonore Charrez: Why 5th house ?

02:21:15 Barbara Bernales: I agree Ray. I have Venus/Jupiter conjunction in my 2h and I'm a saver and hate losses.

02:23:04 Eleonore Charrez: Well they always did.... this is not new, just with the social media, less money is needed. in the "old" days the raiders just needed much much more money

02:25:48 Ibrahim Kone: @Pouyan - I absorbed the same in BTC and divergence to ETH indicate it as well that why I was asking would make sense but will see :-)

02:26:17 Ali Alvarado Atias: Gianni, can you Please re-post the details for the course 3 research presented by Ray?

02:26:23 Eleonore Charrez: Thanks !
