00:18:03   Danica Cordell-Reeh: Any update on FAR providing the dates in excel like form on the critical dates that correspond to the percentages in the tables?

00:23:44   MJ W: Would it be feasible to filter by date ranges for the filtered waves? This would likely involve Carlos writing some code, I'd imagine. I think this is a slightly different request than Danica's.

00:30:11   Merriman Market Analyst: Not sure MJ how this would iffer from Danica's question in terms of a printout or table. It seems that Danica's request would fit this request as well, no?
