

00:31:43 Danica Cordell-Reeh: Could the us market be impacted also by the traits to the us chart

00:33:28 Ali Alvarado Atias: In the present scenario,we have CRDs towards next week,as well as very high Solunar WV's, would you read this as being more volatile than just having one high value in each ?

00:46:56 Matthieu Kaiser: how can we know the Level 1 signatures for the SSE and the Nikkei?

00:49:07 Matthieu Kaiser: are they similar to those of the US stocks?

00:49:37 Matthieu Kaiser: all right, thank you

00:52:32 Martha Geiger: where can I find a list of what constitutes a level one, two etc. Drawing a blank

01:32:08 Danica Cordell-Reeh: What statistics are on the bottom

01:32:28 Merriman Market Analyst: stochastics

01:32:30 Merriman Market Analyst: slow

01:32:31 Danica Cordell-Reeh: Just saw it

01:34:19 Vito Mijal-PAsa:Expanded Wave (In Elliot) I see from November high to Feb Low may indicate a new high after this important low maybe ?

01:34:52 Vito Mijal-PAsa:Either way an healthy Rally after this Low

01:39:30 Wyatt Fellows: I was looking at a possible 3 phase for snp this morning...first major was in 9th week and we just had the second in the 8th week

01:40:17 Wyatt Fellows: 17th week but 8 week second major cycle

01:42:48 Abhishek Singh: Moon in Pisces could make bottom

01:42:49 Eleonore Charrez: How about looking at the cycle above, the 4Y cycle, to check where that is. May that give information on the current PC ?

01:43:20 Merriman Market Analyst: Could be Abhishek!

01:43:51 Merriman Market Analyst: Eleonore, the 23 month cycle is more pertinent in this case, because we are approaching the half-cycle low to the 4-year cycle, which began in march 2020

01:44:21 Merriman Market Analyst: Hence the questions surrounding the primary cycle because we need to be open to distortion with the longer, intermediate-term cycle coming due

01:45:37 Ali Alvarado Atias: Ray, my FAR shows a WV of 192.80 for the 29th and 30th of Jan, can you confirm these Values?

01:47:42 Matthieu Kaiser: they often correlated with strong medium-term moves

01:47:43 Vito Mijal-PAsa: Natural Parallel Channel from low to low and high will give that approx target ?

01:49:05 Merriman Market Analyst: no mid-cycle pause projection, Vito

01:49:12 Vito Mijal-PAsa: or expanded Fibo level of 1.27 /1.382 from the last low might find the high

01:49:12 Ali Alvarado Atias: Thanks!

01:52:27 Merriman Market Analyst: yes, could be target too, Vito

02:00:48 Wyatt Fellows: 45-80

02:02:48 Abhishek Singh: Can Venus Going Direct will affect?

02:03:05 Merriman Market Analyst: indeed could be 1/2 pb Abhishek

02:05:20 Matthieu Kaiser: the momentum seems very bearish on silver, looking at daily & weekly MACD

02:05:25 Vito Mijal-PAsa: then it may become a bearish next Primary cycle start ?

02:05:48 Matthieu Kaiser: right

02:07:27 Pouyan Zolfagharnia: I agree with the contraction, specially given the previous primary cycle was extended

02:07:32 Vito Mijal-PAsa: I mean if it takes out the last PB and puts low for this Primary cycle then next Primary bearish ?

02:08:00 Merriman Market Analyst: depends on the cycle count

02:08:06 Merriman Market Analyst: if it's an older one then that could just be the low

02:09:38 Danica Cordell-Reeh: With headlines about Russia and Ukraine if there is movement there would that push values up

02:09:41 Pouyan Zolfagharnia: Copper was exactly the same as Silver on the Short term trade

02:20:26 Wyatt Fellows: t-notes could have done 3 year low 2 weeks ago...was it an expanded primary?

02:20:29 Danica Cordell-Reeh: Yes please look at crypto examples

02:21:58 Eleonore Charrez: But those debts are generally swapped...

02:22:01 Danica Cordell-Reeh: Lease renewals in Manhattan are 40 to 50% which is historic. It is taking rental rates 20 to 255 above pre covid highs 2019

02:23:44 Vito Mijal-PAsa: when that sort of craziness happen its time to take a break and have a good look I think ,it may well be a peaking story

02:26:10 Pouyan Zolfagharnia: Bitcoin, we have another Sun in Aqu and Moon in Vir (which resulted in last week's low) in mid Feb before the Sun moves to Pis.
