01:50:09 Rita Perea: When do you anticipate the quizzes with answers will be posted on the Course Five section of the website? Thank you.

01:50:15 Matthieu Kaiser: the mcp target here would lead us quite low

01:54:53 adam child: Could that pattern be a head and shoulders with a lower right shoulder

01:55:46 adam child: yes

01:56:46 adam child: I was looking at the high in November

01:57:03 adam child: yes

01:57:15 adam child: ok

01:57:21 Eleonore Charrez: could that move into a bear market, with commodities driving inflation and eventually recession ?

01:57:33 Wyatt Fellows: do you favor the possibility of the snp being in a 3phase pattern now after last weeks action or do you favor the 2 phase labeling as more probable?

01:58:31 Danica Cordell-Reeh: Have read that blackjack could be a grey swan that takes the market down

01:58:59 Merriman Market Analyst: what is blackjack?

01:59:14 Danica Cordell-Reeh: Black rock

01:59:37 Merriman Market Analyst: we'll look at that chart after gold and bitcoin

02:02:34 Wyatt Fellows: fertilizer producer too

02:03:08 Pouyan Zolfagharnia: Are you concerned with the bearish Oscillator divergence on the weekly chart in crude oil?

02:03:13 Matthieu Kaiser: natural gas is probably the major point here

02:03:41 Pouyan Zolfagharnia: both RSI and CCI are showing it

02:04:01 Wyatt Fellows: i agree with you matthieu...

02:04:23 Danica Cordell-Reeh: Is not also Russia the largest producer of palladium

02:06:41 Wyatt Fellows: we are early in 17month though

02:06:46 Wyatt Fellows: yup

02:07:28 Matthieu Kaiser: new high into Jupiter-Neptune

02:08:28 Merriman Market Analyst: Yes, that's the key

02:08:44 Matthieu Kaiser: a half-cycle now would be a great buying opportunity

02:08:49 Wyatt Fellows: Matthieu...i think we had 17 month cycle low in nat gas 12/30 about a month later than crudes

02:09:34 Matthieu Kaiser: thanks Wyatt

02:10:10 Matthieu Kaiser: i think nat gas supply to Europe is one of the greatest stakes medium term here

02:11:39 Matthieu Kaiser: longer term the tilt of Russia towards China is the thing to keep in mind

02:12:24 Wyatt Fellows: very good point

02:13:53 adam child: It is siting on that trend line right now

02:14:03 adam child: siting even
