00:15:02 Daniel Ineichen:congrats, Sir!

00:15:26 adam childs: Fang Are you sure you cannot come

00:16:11 fang: I cant even fly back to Singapore, there's absolutely no flights back Singapore from Shenzhen all the way till Oct\

00:16:14 fang: Oct

00:16:39 adam childs: I see is it the covid outbreak

00:16:41 fang: Shanghai is under massive lockdown right now. We went thru that in Shenzhen not long ago too.

00:16:47 adam childs: maybe that will change

00:17:51 fang: I'm hoping it is all unnecessary fear due to the Jupiter Neptune effect and all this will pass after the conjunction has passed

00:18:16 adam childs: Fingers crossed

00:20:15 adam childs: very smart

00:20:21 Matthieu Kaiser: very nice

00:42:23 Darri Murphy: is this review sheet available to us?

00:43:36 Merriman Market Analyst: Yes Darri it's in Course 5 workbook

00:43:46 Matthieu Kaiser: it's in "reactions" (not sure it's the same title in English)

00:43:54 Diane Western: under "reactions" to raise hand

00:43:58 Merriman Market Analyst: yes you're right thank you!!

00:52:56 Matthieu Kaiser: well done Wyatt

00:53:09 Darri Murphy: impressive!

00:53:10 Maya Bothe: Great Wyatt!

00:55:57 Matthieu Kaiser: the S&P has taken out the 170-day MA, can't we take it as a confirmation the 23m low is in?

00:56:20 Matthieu Kaiser: 8m sorry

01:29:52 Wyatt Fellows: yes

01:33:06 fang: Is there a possible inverse HnS forming in DJI now?

01:40:38 fang: I cant as I don't have audio

01:41:00 fang: no mic, sorry abt that

01:49:03 Renato Ricks: if the 23m cycle is bearish and tops out in months 2-6, is that based on historical study?

01:50:34 Renato Ricks: ty

01:50:46 Darri Murphy: Thanks Ray Course Five, Page 36 of the workbook is the review. I downloaded, copied and pasted it in WORD, printed it for future reference.

01:51:55 Maya Bothe: A general question. Gianni said a smaller right shoulder of an inverse h&s is very bullish. What if the right shoulder is lower than the left shoulder? Should one then be cautious for a possible failure?

01:52:07 Matthieu Kaiser: couldn't it be a double MB?

01:52:57 Merriman Market Analyst: Correct Maya if the right shoulder is lower in an inverse H&S it suggests caution

01:53:06 Merriman Market Analyst: In theory yes Matthieu

01:53:07 Maya Bothe: thanks

01:53:22 Matthieu Kaiser: ok

01:58:14 Pouyan Zolfagharnia: The Lunar Rhythm chart for Gold is also showing a trough with moon in Cancer

02:04:33 Ibrahim Koné: Silver seems to be forming an half primary bottom

02:06:09 Wyatt Fellows: be nice to see if we can get some divergence between gold and silver late this week into the following week...

02:09:42 Eleonore Charrez: How about oil ?

02:10:09 Ibrahim Koné: We could have a right shoulder forming here

02:14:04 adam childs: Can we look at wheat they are late planting in the Ukraine I think

02:15:31 Wyatt Fellows: just spring wheat adam...the majority wheat is winter wheat so it has already been planted and coming out of dormancy

02:16:04 adam childs: I see thank you for the good information

02:16:23 adam childs: So it might not be a problem

02:16:47 Maya Bothe: I think the 4 yr cycle trough in Bitcoin is still due and could get as steep as 18575

02:18:10 Wyatt Fellows: still could be an issue has it needs to be fertilized yet but if your going to see an issue it will be in the corn which is planted in the spring

02:19:19 adam childs: the solar lunar for bitcoin point to a low around the 8th

02:20:23 adam childs: Maybe we should look at corn

02:21:52 Wyatt Fellows: corn has the potential right now...especially after usda planting intentions report last Thursday...if your going to play grains near term that's the market you want to be in

02:22:46 adam childs: Thank you Wyatt for your expert knowledge

02:23:10 Wyatt Fellows: have to ask Gianni but i think corn had major cycle low with venus/Saturn last week...this would be the last major cycle for this primary

02:23:40 Wyatt Fellows: beans are falling to primary cycle low though

02:23:53 adam childs: Gianni can we look at corn

02:25:40 adam childs: thank you

02:25:46 Danica Cordell-Reeh: One news letter mentioned that long term crude oil could reach \$183 to \$210 by 2032

02:29:11 adam childs: how weeks in the Primary cycle

02:30:39 Eleonore Charrez: Welll 75% of oil prices go to governments... helps them pay their huge debts...
