

00:18:03 Matthieu Kaiser: Hi all

00:18:33 Matthieu Kaiser: Wyatt, I haven't seen you on the FB group - would you mind sharing your email address with me/us?

00:20:06 Wyatt Fellows: yeah sure...thanks matthieu...I never went down the facebook "rabbit hole"!...appreciate you saying something.

00:20:15 Wyatt Fellows: wfellows7@gmail.com

00:22:35 Matthieu Kaiser: many thanks Wyatt - about FB, I fully understand - I must say I quit using it a long while ago, and I haven't well got the habit of using it again - so to all please bear with me if I am not that present on the group ;-)

00:27:33 Lian Handaja: same here, Matthieu. :)

00:39:48 Ibrahim Koné: yes

00:43:23 Danica Cordell-Reeh: Yes Danica.CordellReeh@gmail.com if sent or posted here will create one to send to all and it helps perhaps to have country too

00:43:56 Jennifer Seiden: Pleas add me also, jenniferseiden1@gmail.com Thank you, Jennifer

00:54:30 Eleonore Charrez: eleonore.charrez@hotmail.com, many thanks for sharing !!!

00:54:41 Darri Murphy: hi Ray

00:54:50 Merriman Market Analyst: Hi all!

00:54:50 Matthieu Kaiser: hi Ray

00:55:02 adam childs: Hello :-)

00:55:13 Merriman Market Analyst: Yes, I learned markets via bar charts before candlesticks came into being.

00:56:31 Abhishek Singh: Steve Nison - Candlestick book

00:59:21 Ali Alvarado Atias: Gianni, I have a question, when you have a moment

01:00:09 Merriman Market Analyst: Could be a half-primary cycle low forming ehre

01:01:12 Matthieu Kaiser: on Friday, the DJIA closed in the price target area for this.

01:03:52 Merriman Market Analyst: 45-85% retracement

01:04:04 Merriman Market Analyst: And it could be April 27-30 or May 6-9

01:04:27 Merriman Market Analyst: Its a good risk reward trade to buy in this range with a stop-loss below the low of Feb 24

01:04:29 Wyatt Fellows: that's what im thinking ray...

01:04:47 Matthieu Kaiser: Pluto and Mercury stations are good geocosmic candidates for a HB

01:05:23 Merriman Market Analyst: Yes, good point. But I think the big key will be Sun conjunct Uranus

01:06:00 Merriman Market Analyst: 9.70 C/S value

01:06:15 Merriman Market Analyst: Yes, Sun/Uranus affects treasuries big time too

01:07:09 Merriman Market Analyst: Treasuries and Yen are collapsing - characteristics of Uranus (Sun) in Taurus

01:07:16 Merriman Market Analyst: May 5

01:07:34 Merriman Market Analyst: Payroll reports are May 6

01:07:57 adam childs: Is it the inflation that is killing bonds

01:08:01 Matthieu Kaiser: eclipse on 30 April

01:08:02 Pouyan Zolfagharnia: strong Solar-lunar dates on May 5 for NASDAQ too
01:08:26 Merriman Market Analyst: And Uranus rules NASDAQ
01:08:49 Abhishek Singh: Lunar rhythms as well. Moon in Pisces 26 /27th April -possible halt for the down move - "can be"
01:09:36 Merriman Market Analyst: Yes, Venus to Neptune and Jupiter could be peak of hysteria, or it continues into Sun/Uranus
01:11:25 Danica Cordell-Reeh: Mmta2

01:12:56 Eleonore Charrez: Which were the geocosmics which may have brought the markets down thursday & friday ? Mercury square Saturn, conj uranus ?

01:14:21 Merriman Market Analyst: Maybe Saturn T-square Nodes, hitting the NYSE Mercury square Pluto, and then mercury transits you mention became the short-term trigger

01:18:17 Ibrahim Koné: What is your view on Aussi Dollar and Euro?

01:18:39 Wyatt Fellows: euro due for PB anytime now

01:19:21 Eleonore Charrez: Question about pivot point . S&P has a PP of about 4337 based on last weeks H, L, C . So PP should first be resistance of coming Week?

01:20:09 Matthieu Kaiser: the EUR has arguably hit a 24-month bottom on 7 March

01:20:22 Matthieu Kaiser: if so, the new primary cycle is bearish

01:20:41 Matthieu Kaiser: that would make sense with the current situation in Europe

01:20:41 Danica Cordell-Reeh: Read one report that if crude breaks the upward trend then potentially up to \$230 next year

01:22:04 Merriman Market Analyst: Eleanor, PP for S&P futures is 4341.25 and yes, it represents resistance. Market has 67% of getting here this week.

01:22:21 Martha Geiger: What about the Chinese yuan

01:22:23 Wyatt Fellows: its a possible count matthieu...I favor a PC bottom still yet to form though

01:22:46 Daniel Ineichen:can we look out our favourite BTC chart too? Had a very weak close too-

01:22:47 Matthieu Kaiser: possible indeed - the thing is we are out of the time band for the half cycle bottom

01:22:50 Merriman Market Analyst: Eleanor, could eb resiatanc ei dailies show resistance there one day too

01:22:50 adam childs: Yeah what is happening to the Chinese Yuan

01:23:16 Eleonore Charrez: Thanks Ray !

01:23:21 Ibrahim Koné: Strongly enough Gold and Silver does did not get a bid in this equity decline but it looks like an intermarket divergence is forming

01:25:00 Matthieu Kaiser: actually crude oil resisted very well on Friday - it bodes well for higher prices

01:27:20 Matthieu Kaiser: drying liquidity is very bad for BTC

01:30:06 Wyatt Fellows: matthieu...half PC cycles in euro are 11-21 weeks I think?...next week would start the 22 week so we aren't too far past...would still be applicable these next 2 weeks

01:30:11 Ibrahim Koné: Institutions are often late in the party

01:30:49 Martha Geiger: So, would you sell BTC now?

01:31:47 Matthieu Kaiser: Wyatt, to me we are in the 35th week of the PC that started in late August - what is your take for the start of this PC?

01:32:13 Matthieu Kaiser: (ok for the half-primary bottom)

01:32:14 Merriman Market Analyst: Martha, we could be seeing the 11-week major cycle low still forming (9-14 weeks, this starts week 13)

01:32:49 Wyatt Fellows: same...we are gonna start the 36th week of the PC this week

01:33:16 Wyatt Fellows: for euro

01:33:51 Matthieu Kaiser: it is still possible to see the PB, definitely

01:34:55 adam childs: Although bitcoin is holding up a bit compared to the indices

01:35:36 Matthieu Kaiser: what made me think 7 March was it was the steep fall between Feb and March, which looked like a decline to the second HB of the cycle

01:36:48 Wyatt Fellows: that count is possible matthieu...I would agree

01:38:30 Merriman Market Analyst: Sun/Uranus can be very windy and damaging hail

01:38:57 Matthieu Kaiser: would Jupiter in Aries correlate with drying liquidity in the economy as a whole?

01:39:20 Merriman Market Analyst: Saturn

01:39:33 Merriman Market Analyst: Yes, contraction of money supply

01:39:46 Merriman Market Analyst: In Aquarius, T-square Nodes

01:40:09 Merriman Market Analyst: Especially with South Node in Scorpio

01:40:32 Matthieu Kaiser: interesting we had this decline last week as Mercury squared Saturn

01:41:03 Merriman Market Analyst: Which brought in Nodes T-SQUARE Saturn

01:41:06 Pouyan Zolfagharnia: Thanks Gianni

01:41:14 Matthieu Kaiser: we will have it again in late May - early June, with both planets stationing on 3-4 June

01:41:15 adam childs: thank you :-)

01:41:18 Daniel Ineichen:thank you!

01:41:25 Matthieu Kaiser: thanks :-)

01:41:27 Ibrahim Koné: Thank you everyone!

01:41:34 Ali Alvarado Atias: Thanks everyone

01:41:35 Abhishek Singh: Thanks

01:41:37 Darri Murphy: Thank You Gianni

01:41:38 Merriman Market Analyst: gOOD JOB, Gianni!

01:41:40 Yating Hu: Thank you!
