00:25:25 Merriman Market Analyst: Here is the link for those who have not signed! Thank you!!

00:27:23 Eleonore Charrez: Thanks, done

00:28:34 Matthieu Kaiser: i don't even remember i did it - i think i did as soon as i received the email but can you please confirm?

00:28:53 Daniel Ineichen:just re-sign. I've done the same...

00:28:59 Merriman Market Analyst: Yes, you signed Mattgieiu

00:29:05 Matthieu Kaiser: all right, thanks

00:29:07 Merriman Market Analyst: Matthieu

00:29:20 Daniel Ineichen:Abisheck: would you have an email address where I can contact you for an idea?

00:30:37 Danica Cordell-Reeh: Abhishek Singh
abhishekhbsingh@gmail.com, India

00:30:53 Daniel Ineichen:I promise to also write your Name correctly the next time... ;-)

00:31:20 Daniel Ineichen:thank you!

00:31:37 Jennifer Seiden: Signed x2, really appreciate & respect proprietary nature. Thanks for sharing the knowledge & making available to class.

00:33:53 Matthieu Kaiser: +1 Jennifer

00:47:15 Matthieu Kaiser: ok for this part - but are we supposed to have received confirmation that we signed?

00:48:13 Merriman Market Analyst: No, that was not inserted but I will tell Alie for the future and see if its possible

00:48:57 Matthieu Kaiser: oh ok - thanks

00:49:47 Ali Alvarado Atias: Ray, Gianni, does FAR have the capability of calculating the TIP?

00:54:00 Martha Geiger: What software are you referencing to do this for you

00:54:17 Eleonore Charrez: Do you use it on monthly data ?

00:54:49 Eleonore Charrez: not even for investment horizon ?

00:55:09 Eleonore Charrez: ok, thks

01:05:35 Daniel Ineichen: if day 1 is up , day 2 down and day 3 up it would be a trend run up day if closes are above the TIP all three days?

01:08:14 Martha Geiger: I'm missing something-why do you not list the TIP for day one on day one?

01:08:36 Merriman Market Analyst: Because you need three PPs to create a TIP

01:10:01 Eleonore Charrez: I just calculated the monthly TIP of S&P, it's (roughly) 4262 for April, 4486 for march, 4354 for feb, With TIP for the 3 months at 4367, and April ended below the TIP. does that now mean that market is bearish, or would it mean, to wait for confirmation in may ?

01:34:50 Matthieu Kaiser: Gianni, can you confirm the TIP for 4/4?

01:35:42 Matthieu Kaiser: the PP sorry

01:38:13 Din Uppal: Can you look at a weekly or daily report and walk through the TIP. I am have not been able to use these in daily reports.

01:38:34 Matthieu Kaiser: I think it 34715

01:38:49 Matthieu Kaiser: for 28/3

01:41:16 Rita Perea: Question, please: If we are using the weekly, do we calculate this on Friday for use the following week? Thank you.

01:42:23 Merriman Market Analyst: correct Rita you would need Friday's close to determine the next week's numbers

01:42:25 Eleonore Charrez: Not sure I got it : if close is above TIP then up ? if close below TIP, then down ?

01:42:57 Merriman Market Analyst: you need 3 consecutive closes above the tip plus a higher close on the 3rd day to upgrade tip

01:45:15 Din Uppal: Thank you

01:45:46 Maya Bothe: I`m wondering: Is the monthly TIP really tradable? Isn't it lagging too much?

01:48:32 Daniel Ineichen: what calculation do you need to get to support and resistance values?

01:48:40 Merriman Market Analyst: coming soon ;-)

01:48:48 Ali Alvarado Atias: Is there any way of getting these calculations in Excel? for those of us who don't own Metastock?

01:48:54 Wyatt Fellows: yes ali

01:49:03 Wyatt Fellows: i built a spreadsheet

01:49:27 Danica Cordell-Reeh: Thank you Wyatt

01:49:34 Wyatt Fellows: i use barchart excel module

01:49:36 Matthieu Kaiser: very simple, just moving averages

01:49:51 Ali Alvarado Atias: Ok Thank You Wyatt, It would save me time I don't have now!

01:49:57 Din Uppal: How does the Bitcoin TIP get impacted as it is 7 days days.

01:50:41 Daniel Ineichen: 7 days trading

01:50:51 Wyatt Fellows: you have to build the formulas and then the barchart module brings in daily/weekly data automatically

01:50:59 Din Uppal: Do week look at the weekend

01:52:08 Matthieu Kaiser: Wyatt, do you mean you import data with internet links?

01:52:34 Wyatt Fellows: yes data is imported everytime you open the spreadsheet...even intraday

01:53:02 Danica Cordell-Reeh: Wyatt what data source are you importing from

01:54:20 Wyatt Fellows: barchart.com has a good excel module...i pay for it monthly but is reasonable and well worth the time savings for me

01:54:38 Matthieu Kaiser: thanks Wyatt

01:54:48 Wyatt Fellows: im sure other sites/vendors have good ones as well

01:55:04 Matthieu Kaiser: Ibrahim, what broker do you work with?

01:56:24 Ibrahim Kone: Saxo bank & interactive broker

01:57:13 Matthieu Kaiser: thanks - saxo for me - are you using IB for futures or other products?

01:58:49 adam childs: so does Jupiter going into Aries mean there will be heavy spending on Weapons.

01:59:00 Merriman Market Analyst: probably

01:59:11 Merriman Market Analyst: lots of money being sent to Ukraine right now from the US

01:59:16 Merriman Market Analyst: war drums beating

01:59:30 adam childs: Can we look at Oil

02:00:00 Ibrahim Kone: Could you go through the dollar index has it is impacting a lot of other market

02:00:19 Danica Cordell-Reeh: Some newsletters have already put forth a time line for escalation with the French election as one of the critical point dates

02:00:52 Matthieu Kaiser: That makes sense, Danica.

02:01:30 Matthieu Kaiser: My guess is there is some kind of run against time here, actual ins & outs to be known later

02:02:54 Matthieu Kaiser: and as Pluto has just turned retrograde still in Capricorn and powerful eclipses under way, I would expect unexpected revelations to come up

02:03:07 Ibrahim Kone: What about an inter-market bullish divergence with Silver?

02:03:51 Maya Bothe: Me too, Matthieu

02:04:49 adam childs: I think the EU are going to ban Russian oil

02:05:17 Merriman Market Analyst: Intermarket bullish Div to Silver? Both made new cycle lows last week, I think

02:05:21 Wyatt Fellows: and they are going to replace that how?

02:06:00 Matthieu Kaiser: what is your take on the impact on gold of the Russian decision to peg the ruble to gold and to be paid in rubles only? isn't that supportive?

02:06:11 adam childs: not well and will probably buy it via other countries

02:06:14 Maya Bothe: Germany: US / Katar

02:06:18 adam childs: some of it

02:07:08 adam childs: And the dollar is high

02:09:32 Pouyan Zolfagharnia: Has the NASDAQ turned bearish?

02:12:30 Danica Cordell-Reeh: Ray Dalio has the US on the decline and China on the rise as an empire

02:12:34 jeff hanus: Maybe Putin gets taken out?

02:13:07 Martha Geiger: Danica, that is a widespread sentiment.

02:14:10 Rita Perea: We were on a medical mission to Ukraine several years ago...Agree, beautiful people!

02:14:49 Eleonore Charrez: Putin is behaving like a mafia boss - and there are small nukes... he may just use it.. mafia like décisions...

02:15:01 Matthieu Kaiser: even though the election has gone down exactly as expected, I don't think this was the end of the story in France - I think coming months will be volatile and Macron's position is not that comfortable

02:15:48 Ali Alvarado Atias: thoughts on today's eclipse on Taurus?

02:16:14 Ali Alvarado Atias: in*

02:18:19 Jennifer Seiden:Can you type the name of the Russian Economist

02:18:28 Jennifer Seiden:lol

02:18:30 Pouyan Zolfagharnia: even though we have Pluto ingressing Aqua? The opposite point to the ingress it made during WW2? & the great conj. degree?

02:18:48 Merriman Market Analyst: Nikolai Kondratieff

02:18:55 adam child: is 54 years near to three nodal cycles

02:18:58 Jennifer Seiden:Thanks

02:19:43 Jennifer Seiden:Going through my Kyron Return & it's been interesting!! Lots of fun... not

02:19:55 Jennifer Seiden:*Chiron

02:21:02 Eleonore Charrez: Guess we'll go back to the cold war... democracies vs. tyrannies / dictatorships...and that also means protectionism , bringing back production to democracies

02:22:19 Eleonore Charrez: and 24.02.2022, start of Ukraine war is 5 :(

02:22:25 Maya Bothe: wow

02:22:56 Eleonore Charrez: and in Switzerland a documentary with Navalny comes out shortly

02:24:15 Vito Mijal-PAsa:Oliver Stone did a documentary around that time too and that was very prophetic

02:24:15 Eleonore Charrez: Platon and Aristote would say Putin is a Tyran

02:24:18 Jennifer Seiden:Ray thanks for sharing about the Ukrainian family you are helping.... Gianni & Ray, your perspectives, insights & wisdom are what it's all about. Thank you for Balanced view of this "Manic Depressive" period in history. My Optimistic Sag. Rising wants to believe in the Good!! Positively Riveting....
