

00:14:37 Danica Cordell-Reeh: Any one else have Capricorn rising? I do at 6 degrees

00:14:49 Darri Murphy: Darri 3 Degrees

00:15:13 jeff hanus: my sun is 3

00:17:32 Vito Mijal-PAsa: can we go through Rays caveat regarding TIP again please thanks

00:29:50 Daniel Ineichen: but is the 23.83 TIP for the same day, i.e. day 3 or is it for day 4?

00:30:08 Eleonore Charrez: below 24

00:30:42 Daniel Ineichen: day 4 or day 5

00:30:49 Eleonore Charrez: And at what point would you go long or close the longs or even go short ?

00:30:58 Vito Mijal-PAsa: DAY 10 FINISHED AT 24 , THEN ?

00:31:14 Daniel Ineichen: but we currently compare it to the same day, don't we?

00:31:30 Eleonore Charrez: ah ok, so it's one additional tool, thanks

00:31:51 Vito Mijal-PAsa: I MEAN IF THE CLOSE FINISHED AT 24

00:32:23 Ibrahim Koné: do we always start with Neutral ?

00:42:26 Eleonore Charrez: here also, the tip and PP should be moved down by one row ?

00:43:19 Eleonore Charrez: ok, sorry, thks

00:46:15 Ali Alvarado Atias: a visual might help

00:47:22 jeff hanus: maybe a flow chart?

00:47:32 Danica Cordell-Reeh: Yes a flow chart

00:47:50 Ali Alvarado Atias: I was referring to a price action visual setup of each individual setup

00:48:22 Jennifer Seiden: Yes, Algorithm!

00:48:24 Danica Cordell-Reeh: Great idea Ali

00:49:49 Ali Alvarado Atias: What ive done is create the daily pivot and a 3 day ma, and following it along

00:49:51 Yating Hu: Up:

close > TIP for 3 consecutive days

AND

3rd day close > 2nd day close

\* if 3rd day close < 2nd day close - N\*

00:50:13 Yating Hu: down:

close < TIP for 3 consecutive days

AND

3rd day close < 2nd day close

\* if 3rd day close > 2nd day close - N\*

00:50:53 Ali Alvarado Atias: I have placed it on the chart directly, it clears up once you see it on your chart

00:54:04 Pouyan Zolfagharnia: similar to a mid cycle pause, but for momentum

00:55:08 Ali Alvarado Atias: Sure, let me fire up the platform

00:58:42 Eleonore Charrez: and if a CRD matches, that would confirm ?

01:22:18 Dian Brown: Thank you Ali. That is so helpful.

01:22:18 Lian Handaja: Ali, the MA is the high, low, close?

01:23:17 Lian Handaja: correct so Ali has to manipulate his MA?

01:23:23 Vito Mijal-PAsa: IF ALI PUTS A CHANNEL ON THIS RETRACE WE LL SEE IT IS ABOUT TO HIT THE BOTTOM OF THAT CHANNEL AROUND NEXT 3 WEEKS THIS ,IN MY OPINION , ALSO AN EARLY INDICATION FOR A REVERSAL

01:23:25 Pouyan Zolfagharnia: I know tradingview allows you to have a MA on HLC

01:23:59 Lian Handaja: Thanks Pouyan.

01:25:56 Ali Alvarado Atias: Glad it helped Diane

01:26:09 Ali Alvarado Atias: Yes, This is a simple MA 3 Period

01:30:49 Yating Hu: Up days should be at least 3 periods

01:35:22 Ali Alvarado Atias: Rita I believe it works on both using Boot camp which allows for PC programs to be installed in MACs

01:35:31 Vito Mijal-PAsa: IN

01:35:31 Daniel Ineichen: fine with me!

01:37:01 Lian Handaja: regarding research project, do we need to have FARS?

01:37:04 Ibrahim Koné: we can also do the quiz next week

01:37:14 Danica Cordell-Reeh: Rita. FAR runs on the M1 Mac chip and also on the intel chip. What will be a major problem is "UltraSurf" if it gets into your machine. It shuts the program down and is almost like a virus

01:38:11 Maya Bothe: What's „UltraSurf“?

01:38:33 Rita Perea: Thanks Ali and Danica. I am using GT/FAR on a PC now.

01:38:34 Danica Cordell-Reeh: Like chrome.

01:55:20 vincent wang: a very shallow Primary cycle

01:55:43 Maya Bothe: I am concerned the EUR / USD could fall to 0,85 over time 😞

01:55:58 Matthieu Kaiser: +1 Maya

01:56:16 Matthieu Kaiser: IMHO it is actually in danger of dying altogether

01:56:16 Danica Cordell-Reeh: Martha on newsletter has the EUR/USD possibly hitting 0.81

01:56:38 Vito Mijal-PAsa: SOMETIMES CYCLES CAN HAPPEN IN A SUBTLE MANNER HURST SAID

02:01:11 Vito Mijal-PAsa: SURELY PART OF DEGOBILIZATION AND CHINESE WELL AWARE AND THEY MAY WELL BE HOLDING THE WORLD RANSOM SHUTTING SHANGAI DOWN

02:01:14 Matthieu Kaiser: the Japanese fundamentals are deflationary

02:01:59 Danica Cordell-Reeh: Euro falling to 0.81 by 2025

02:02:22 Matthieu Kaiser: faster IMO

02:02:40 Matthieu Kaiser: it may get there this year

02:03:08 Maya Bothe: 2025 would fit with a longterm trough in the Dax
