01:38:55 Wyatt Fellows: got the 15 dma there too

01:44:58 Ibrahim Koné: I would be interested to take Ray's view on the ETH asking this because Crypto has been leading the market if you are expecting equities to rally for few months when crypto is making a HPB or could this be an early PB?

01:46:56 adam child: Would \Jupiter in Taurus create a live cattle boom

01:47:22 Gianni Di Poce: Good point Adam. That makes goo sense

01:52:08 Matthieu Kaiser: in the US stocks, how long does a rally in the 23m cycle last at least?

01:52:17 adam child: I see

01:53:41 Ibrahim Koné: This also what I am looking for 👍

01:54:26 adam child: Is it possible as it market cap increases the prices may retrace slightly less

01:55:04 adam child: that is in Bitcoin

01:55:18 Matthieu Kaiser: thank you

01:58:23 Lian Handaja: Ray, you mentioned that the market would rally the next 2-6 mo, made high under Sat Ur square, and then we are entering the bear market? Am I understanding that correctly?

01:58:44 Pouyan Zolfagharnia: Gianni, but aren't we in a bearish Primary Cycle? Would the next PB not be below the MBs?

01:58:54 Gianni Di Poce: Ys, that is what I am thinking ian.

01:58:55 Wyatt Fellows: just typing that pouyan

01:59:26 Pouyan Zolfagharnia: Got it - thank you

01:59:35 Lian Handaja: Thank you.

02:00:21 Wyatt Fellows: t-note rally would be good for gold wouldn't it?

02:01:12 Abhishek Singh: Ray what about the "boom & bust" which you suggested sometimes back. Are we still looking for bottoms on long term basis in stock markets sometime post 2025/2026

02:01:56 Gianni Di Poce: Yes. High by end of this year, low 2025-2029 basis Lunar Node studies.

02:02:15 Abhishek Singh: Thank you Ray

02:02:23 Maya Bothe: just had a quick look at BTC: equal leg for an ABC would be 12117.3

02:02:40 Martha Geiger: Looking ahead long term- are we looking for a 90 year low sometime in the next several years?

02:03:32 adam childs: And there is a lot of debt

02:06:42 Maya Bothe: Gianni, yes me too. Very

02:07:14 Matthieu Kaiser: Nancy Pelosi to pay a visit to her counterparts in Taiwan soon

02:07:32 adam childs: Gosh I am not sure how they would protect the Euro with the economies would npt cope with higher interest rates

02:07:34 Matthieu Kaiser: China demanded the US stopped their arm sales to Taiwan

02:08:49 Martha Geiger: Matthieu how has the US responded-I haven't heard this

02:09:12 Matthieu Kaiser: don't know

02:10:00 Matthieu Kaiser: I would be surprised the US abides by this demand

02:10:36 adam childs: Could it be about some countries are starting to dedollarize

02:11:05 adam childs: not sure if that is a word

02:11:05 Eleonore Charrez: or could it be that Italy leaves the EUR ?

02:11:16 Matthieu Kaiser: Mars-Uranus-MN will be square his conjunction Saturn-Pluto next week

02:11:29 Matthieu Kaiser: Saturn rules his ascendant

02:11:43 Daniel Ineichen:I think the time the EUR issues EUR backed debt, the currency will Rebound strongly

02:12:02 Daniel Ineichen:It would be almost impossible to remove countries from the EUR

02:12:12 Matthieu Kaiser: it will be opposite to his Jupiter which is in the 10th house

02:12:48 Eleonore Charrez: And I think Italians never liked having the euro

02:13:30 adam childs: A lot of the southern states don't like the Euro

02:13:46 Matthieu Kaiser: Saturn is currently squaring hie Jupiter

02:13:51 Pouyan Zolfagharnia: same thing happening to Borris Johnson's chart

02:14:20 Pouyan Zolfagharnia: 😊

02:14:21 adam childs: Gosh that is interesting

02:14:34 Ibrahim Koné: back then with Greece the fear was that Spain and/or Italy decide to leave the euro zone (meaning go back to their sovereign currency) ironically this is what Draghi was fighting at the ECB :-)

02:14:36 Danica Cordell-Reeh: is part of the issue that europe made one currency however did not consolidate the debt when the Euro created

02:15:23 Eleonore Charrez: well Draghi was part of asset swaps to reduce Greece and Italy debt and get bboth countires into the euro

02:15:41 Matthieu Kaiser: well spotted Eleonore

02:15:53 Ibrahim Koné: rise and fall :-)

02:18:17 Vito Mijal-Pasa: what it makes one more high Ray ? how would you interpret that

02:20:48 Danica Cordell-Reeh: Is gold considered a commodity as to long term trend versus LT Stocks

02:21:31 Vito Mijal-Pasa: Thats my Bias due to secondary high s nature
