

00:09:41 adam childs: Hello :-)

00:09:51 Rita Perea: Hi Ibrahim! Hi everyone!

00:16:12 adam childs: does previously losing money before the course count as an accomplishment :-)

00:16:28 Merriman Market Analyst: Lol 🤔

00:17:07 Lian Handaja: that is a good idea, Adam.

00:18:14 Ray Merriman: If you survived that, yo are on your way. You have fulfilled the basic requirement to be a trader - you ust suffer a loss and survive to make it in this field :-))

00:19:39 adam childs: You can definitely learn a lot form your loses :-)

00:22:14 Matthieu Kaiser: Then I am a slow learner...

00:38:14 Ray Merriman: Yes, I would say Feb-May was a very difficult time for trading stock indices. Which is why it is important to diversify into other markets, for ir cycles in Gold, for example, have worked out quite well to balance some of those stock market indices los

00:40:46 adam childs: I think emerging markets are sensitive to the dollar. So the question could be has the dollar topped.

00:47:12 Ray Merriman: My sense it has for 2-5 months from the Dollar high

00:48:09 Maya Bothe: the top in dollar will be in 2-5 months you mean, ray?

00:49:56 Ibrahim Koné: 2-5 months also fit with 4 year trough in Crypto market

00:51:17 Ibrahim Koné: Ray I am would not be able to stay until the end today could you please provide your view on ETH specifically if you still see these rebound as a HP cycle?

00:56:39 Ray Merriman: It's a mixed market right now Ibrahim. The rally is still only corrective, but the length has been longer than normal for a bearish primary cycle. My sense it that it still has another show to fall before end of the year, and I am on the sidelines now until we get another big selloff, possibly in the next few weeks.

01:00:01 adam childs: I am wondering whether Uranus Retrograde could affect crypto although Eth has this merge going on

01:22:47 Matthieu Kaiser: the issue here is what we mean by "quickly cut losses" - what is "quickly"?

01:26:56 adam childs: Don't get married to a trade or opinion

01:28:38 Daniel Ineichen:being stubborn in a view is what has caused my largest losses as a trader so far.

01:28:45 Daniel Ineichen:accepting to be wrong is key

01:29:17 adam childs: Yeah I know that one, got to stay humble

01:45:25 Maya Bothe: Nasdaq 16000

01:49:40 Matthieu Kaiser: stochastics are overbought

01:49:53 Matthieu Kaiser: RSI too

01:54:10 adam childs: Could Uranus Rx be a top

01:54:42 adam childs: Especially if it goes crazy over the next two weeks

01:55:09 Maya Bothe: yes, because the S&P has 3 targets open between 3473 and 3550. Even 3160, but that could take some time

01:55:35 Vito Mijal-Pasa: jupiter transiting TAURUS MAY 2023

01:55:46 Matthieu Kaiser: Jupiter sq Pluto

01:56:31 Vito Mijal-Pasa: and North Node transit in May as well I think

01:57:27 adam childs: Can we look at bonds as inflation could be harder to crack than they think

01:57:39 adam childs: yes it fell out of the sky

02:00:11 Vito Mijal-Pasa: Jul 18, 2023 – Jan 11, 2025

02:01:12 adam childs: Just on a ordinary persons view I am seeing people in the private sector put their prices up

02:01:59 Vito Mijal-Pasa: Yes

02:02:10 Vito Mijal-Pasa: North Node ingress Airies

02:03:52 Matthieu Kaiser: are we in the time band for the second half-cycle bottom yet?

02:03:53 Vito Mijal-Pasa: Panic of 1819 1819 United States Left Taurus in October 1818 and stayed in Aries in 1819.

02:04:26 Vito Mijal-Pasa: Panic of 1837 10 May 1837 United States Left Taurus into Aries in May 1937.

02:11:08 Vito Mijal-Pasa: It feels like When North Node is in Earth Sign and make a move From Earth to Fire Sign We have major Market Disturbances In History Either when it is in Earth Sign or When it moved to Fire sign something like 80% of the time just a short observation did not have time to check throughly but feel it is worth while to study !

02:17:09 Lian Handaja: state bonds exempt from state tax but not federal. they tax everything unless they say otherwise. :)

02:17:16 Vito Mijal-Pasa: Also Jupiter Retro In Pisces may help see the Crest one would think

02:18:10 Lian Handaja: can you take a look at Yen?

02:18:51 Matthieu Kaiser: Jacques Rueff, the French economist, said that inflation is subsidizing spending that return nothing with money that does not exist

02:19:04 Matthieu Kaiser: feels like this has been done quite a lot these last years

02:19:37 adam childs: I was looking a copper and I think the 16month cycle is due in Jan 2023. So how would that fit in there could be a higher moves before a low early next year

02:19:59 adam childs: Although there could also a be two phase

02:20:09 adam childs: which would make this the low

02:22:35 Vito Mijal-Pasa: Copper price behaviour Looks more like an important Low

02:22:46 adam childs: where would you put the 16 month low

02:23:01 Merriman Market Analyst: august 2021

02:23:40 adam childs: Oh I see right now
