

# MMA Trading & Investment Retreat Class Schedule

September 9-11, 2022

In-Person at the Michigan State University Management Education Center

## Friday September 9, 2022

**Raymond Merriman: *Welcome and Introduction to the MMA Market Timing Methodology*** – From Investing to position trading, to short-term trading. The five-step process to determining optimal times for buying and selling, and why long-term investing in financial markets (especially the stock market) is the key to building long-term wealth – and how cycles and geocosmic studies can be of greatest value in that quest.

**Gianni Di Poce: *Review “How to Read” the Technical Sections of Daily and Weekly Reports: Part One.*** In this class, we will review: 1) The types of closes – bullish, neutral, bearish. 2) The TIP and it’s status. 3) Support and Resistance. 4) Bullish and Bearish crossover zones.

**Raymond Merriman and Gianni Di Poce: *How to Read and Use MMA’s Daily (and Weekly) Reports.*** Review Weekly Trading Plans and Creating Daily Trading Plans. Position trading, aggressive trading, and pyramid trading; utilizing intraday charts.

**Raymond Merriman and Gianni Di Poce: *Part One: Intraday Analysis; Using 60, 30-, and 5-minute Charts*** when in the time band for a CRD or Solar/Lunar high weighted value period. Understanding the setup. Practice for next day’s trading – executing the trading plan.

**Raymond Merriman and Gianni Di Poce: *Part Two: Intraday Analysis; Using 60, 30-, and 5-minute Charts*** when in the time band for a CRD or Solar/Lunar high weighted value period. Understanding the setup. Practice for next day’s trading – executing the trading plan.

**Q&A and Group Discussion:** What we learned and where the Markets are Trading.

## Saturday September 10, 2022
